

# WHALE WATCHING

Discover the Caribbean Sea and meet whales and dolphins up close! The Caribbean Sea is full of life and there are plenty of whales and dolphins. From the nearest port of Deshaies we will head west towards the deeper parts of the ocean. Here we are often greeted by curious dolphins coming close to the boat and welcoming us on the tour. Wildlife doesn't offer guarantees, but in most cases, we get to see both dolphins and whales from a very short distance. During the day, we will learn about their lives beneath the surface and about the importance of protecting these amazing creatures. Further out, there are also plenty of small fish that roam together with the whales of Guadeloupe.

## Highlights

- Spend a day on the Caribbean Sea
- Learn more about life in the ocean from a marine biologist perspective
- Meet whales and dolphins in their natural habitat

The excursion is in English & French, guide and transport are included in the price.
